

CAPTURING KIDS' HEARTS® LEADERSHIP BLUEPRINT TRAINING

Building High-Performing Teams and Overcoming Personal Constraints®

Cultivating Leaders and High-Performing Teams

Leadership Blueprint helps organizations cultivate leadership potential to meet ambitious goals. Successful leaders know how to create healthy relationships and productive cultures that lead to strong results.

In this two-day learning experience, participants quickly discover that relationships are at the core of performance, and that real trust and respect are essential to any organization seeking to grow and improve.

During Leadership Blueprint, leaders learn and practice specific skills that make clear, candid communication possible. They learn to use these skills in their relationships and to model and apply them on the job.

Approach:

Leadership Blueprint is an immersive, participatory experience, not a theoretical or motivational lecture. Leaders learn and practice skills they will use and model on a daily basis. The Leadership Blueprint: 360 Report provides the basis for an action plan for continued personal and professional development. This assessment will provide Personal Constraints® Recommendations and Insights.

Participant Outcomes:

Participants will learn how to:

- Create peer connections that help accomplish common goals
- Open lines of communication to give and receive feedback effectively
- Use the Capturing Kids' Hearts® EXCEL Model™ during interpersonal interactions and meetings
- Build high-performing, self-managing teams
- Develop specific skills and techniques for conflict resolution
